Subject: RE: EPA Meeting with ConocoPhillips
Date: Thursday, July 14, 2022 3:34:00 PM

Hi Chris,

I just left you a voice message. The earliest the whole team is available to meet is July 25th at 7am; our next available time is August 1st at 12pm. I have placed a hold for both of those times for now with everyone. Please let me know if either of those times work for you and your team.

We would generally prefer for the meeting to be held online; if you would like me to attend in person I'm able to do that since I'm local.

Thank you –

Lauren

Subject: EPA Meeting with ConocoPhillips

Hi Lauren, I spoke with ConocoPhillips' Willow project manager Chris Wrobel (cc'ed here) this morning about a meeting with the EPA to discuss the Willow project. During the previous Willow EIS, Conoco had several meetings with EPA staff to discuss things like road alignment, potential impacts, and compensatory mitigation projects. I know there has been a lot of staff turnover at EPA since the last EIS, so if you all would like a detailed walk through of the project and the proposed compensatory mitigation projects, please reach out to Chris. His phone number is (907) 263-4691. Also, please let me know if you all have any questions on the SEIS as you prepare your comments on the Draft. I'm happy to sit down with you all and answer any questions you have.

Cheers,

Stephanie Rice
